Additional Key Project Stakeholders	
-Project Manager: Zhimu Li, Xufeng Liu, Jiabo Zhang -Target Customer: urban planting hobbyists, urban avid gardeners -Product Supply: local agricultural companies	
Overall Project Milestones	Dates
-Project database for website	TBD
-Project roles management	October 15, 2021
-Project Starts (creating web pages)	October 29, 2021
-Connecting database and JavaScript	TBD
-Project final stage	TBD
Overall Project Risks	
<ol style="list-style-type: none"> <li>1. We need a suitable server (Linux-like) to build our database (prefer MariaDB)</li> <li>2. Limited time to implement every plan on list (search function)</li> <li>3. There is time difference between group members</li> <li>4. Most members are not good at JavaScript</li> </ol>
